MONTHLY PLAYER REPORT 球员月度报告

PLAYER	MONTH	COACH	DATE
PAN JIANI	JULY / 2026	PABLO / CESAR / GABRIEL / XIAO YE (PHYSICAL)	2026.08.05

1. TENNIS TRAINING 网球训练

Month's working focus 本月训练重点摘要

Technical: Generate more vertical acceleration on both sides · Improve weight transfer on serve — forward and upward (feet)

Tactical: Play with more spin and depth · Return the second serve aggressively

During these months, the work with Pan Jiani has focused especially on the mental aspect and on developing routines that allow her to compete with a more stable, positive and constructive attitude.

Pan Jiani is a technically gifted player with a strong ability to execute the different strokes. However, during competitive exercises, point-play drills and match situations, she tends to become emotionally discouraged after making mistakes or when the match is not developing in her favour. After many points, she shows frequent complaints, negative thoughts and negative body language, which directly affect her concentration, confidence and the quality of her play in the following points. For this reason, mental work has been one of the main priorities during this period.

We have emphasised the importance of accepting mistakes, controlling her reactions after each point and using routines that allow her to disconnect from what has already happened and prepare properly for the next point. It is important to understand that this work is not yet complete — mental improvement is a long-term process that requires consistency, commitment and daily repetition in both training and matches.

FOREHAND

We have recommended increasing hand acceleration and extending more through the ball

at contact. On many occasions, she contacts the ball slightly behind her body and directs the follow-through upwards too early, which causes the shot to lose penetration, depth and speed. The objective is contact further in front, extending the arm through the ball before finishing the movement upwards.

BACKHAND

We have worked on opening the court more effectively and increasing hand acceleration to produce a more offensive shot, with greater involvement of the left arm and a higher racket head to generate different heights, spins and directions.

SERVE

The main area of work has been the use of the legs and the upward drive. She tends to finish with the back part of her body remaining behind, without generating enough drive from the legs, losing balance and producing a serve with limited power. She must drive upwards, contact the ball at a higher point and finish with good balance to be prepared for the serve +1 and serve +2.

RETURN OF SERVE

The main focus has been the intensity of the split step — a more dynamic activation jump to react more quickly towards the ball, especially against the opponent's second serve, which usually provides a good opportunity to step forward and take the initiative.

在这几个月的训练中，我们对 Pan Jiani 的工作重点主要放在心理层面，以及建立能够帮助她以更加稳定、积极和建设性的态度参加比赛的固定习惯。

Pan Jiani 是一名技术条件较好、各项击球能力较强的球员。然而，在竞争性训练、计分练习和比赛情境中，当她出现失误或者比赛进展不顺利时，情绪上很容易受到影响，整体表现也会随之下降。在很多分数结束后，她经常表现出抱怨、消极想法以及负面的身体语言，这些反应会直接影响她之后的专注力、自信心以及后续几个回合的击球质量。因此，心理方面的训练一直是本阶段最重要的工作内容之一。

我们重点强调了接受失误的重要性，要求她控制每一分结束后的反应，并运用固定的比赛习惯，让自己尽快摆脱上一分的影响，正确地下一分做好准备。需要明确的是，这项工作目前还没有完成——心理方面的提升是一个长期过程，需要在训练和比赛中保持耐心、投入和每天不断重复。

正手

我们建议她进一步提高挥拍手的加速，并在击球过程中更充分地向前穿透来球。很多时候，她的击球点稍微落在身体后方，并且过早地把随挥动作带向上方，这样会使击球缺少向前的穿透力、深度和速度。训练目标是让她能够在身体前方完成击球，先让手臂充分向前穿过来球，然后再向上完成随挥。

反手

我们重点练习了更好地打开场地，以及增加挥拍手的加速，从而打出更有进攻性的反手，同时更主动地使用左臂，并更好地抬起拍头，从而打出不同的高度、旋转和方向。

发球

训练的重点是腿部的使用以及向上的蹬伸。她在完成发球动作时，经常会把身体后侧留在后方，没有充分利用腿部向上推动，这样会导致身体失去平衡，最终使发球缺少力量。她需要积极向上蹬伸，在更高的位置完成击球，并保持良好的身体平衡，为发球后 +1 和 +2 做好准备。

接发球

我们主要训练了分腿垫步的强度，要求她做出更加积极、有活力的启动跳，更快地对来球作出反应，这一点在面对对手二发时尤其重要，因为二发通常会给她提供一个很好的机会主动上前、掌握主动权。

2. Areas to keep improving 需继续提升的方面

The main area Pan Jiani must continue improving is her mental behaviour during competitive drills and matches. She needs to reduce her complaints, control her body language and prevent one mistake from affecting the following points. She must learn to accept mistakes as a natural part of tennis and use a clear routine after each point: breathe, correct her body posture, maintain a positive attitude and focus only on the next ball.

On the forehand, she must contact the ball further in front, extend more through the ball and increase hand acceleration before completing the upward follow-through.

On the backhand, she must use the left arm more effectively, raise the racket head and accelerate more in order to achieve greater depth, court opening and variety.

On the serve, she needs to improve leg drive, contact the ball at a higher point, increase hand acceleration and maintain better balance at the end of the movement. She must also finish in a better position to play the first shot after the serve aggressively.

On the return, she must perform a more intense and active split step, especially against the second serve, in order to react more quickly and take the initiative from the first shot.

Pan Jiani 最需要继续提高的是在竞争性训练和比赛中的心理表现。她需要减少抱怨，控制自己的身体语言，并避免一次失误影响到后面的几个回合。她必须学会接受失误是网球比赛中的正常组成部分，并在每一分结束后执行清晰的固定习惯：调整呼吸、改善身体姿态、保持积极态度，并且只专注于下一球。

在正手方面，她需要在更靠前的位置完成击球，更充分地向前穿透来球，并在向上完成随挥之前提高挥拍手的加速。

在反手方面，她需要更好地使用左臂，抬高拍头并增加加速，从而获得更好的深度、更大的场地打开效果以及更多变化。

在发球方面，她需要提高腿部蹬伸、在更高的位置击球、增加挥拍手的加速，并在动作结束时保持更好的身体平衡。同时，她还需要在发球后迅速调整到位，以便积极地处理下一拍。

在接发球方面，她需要做出更加有强度和更加积极的分腿垫步，尤其是在面对二发时，以便更快地作出反应，并从第一拍开始主动掌控回合。

3. PHYSICAL TRAINING 体能训练

Areas trained this month 本月训练内容: MOBILITY AND STABILITY (活动度与稳定性) · WORK CAPACITY (工作能力 (耐力)) · STRENGTH (力量) · POWER (爆发力) · SPEED (速度) · RECOVERY AND NUTRITION (恢复与营养)

PHYSICAL TEST 体能测试 · 2026.07.24

Body fat 体脂率 (%) — 14.1 ▲ 14.7 → 14.1

Countermovement jump (CMJ) 蹲跳 (cm) — 31.69 ▲ 31.22 → 31.69

Rotational throw — backhand 反手旋转抛 (m) — 7.7 ▼ 8.45 → 7.7

30 m sprint 30米冲刺 (s) — 5.12 ▼ 5.02 → 5.12

Squat jump (SJ) 静蹲跳 (cm) — 28.2 ▲ 27.67 → 28.2

Rotational throw — forehand 正手旋转抛 (m) — 9.35 ▲ 7.5 → 9.35

Hexagon jump 六边形跳 (s) — 8.77 ▲ 10.44 → 8.77

Spider run 蜘蛛跑 (s) — 19.01 ▲ 19.26 → 19.01

4. COMPETITION — TOURNAMENTS PLAYED 比赛

No tournaments on the calendar for this player this month.

5. TOURNAMENT PLANNING — NEXT MONTH 下月赛事计划

DATE	TOURNAMENT	CITY	STATUS
2026.08.03	PROVINCE GAMES	—	HIGH PRIORITY
2026.08.10	CTJ A2000/CTJ G 1600	DALIANG	HIGH PRIORITY
2026.08.24	ATF	HONG KONG	HIGH PRIORITY

This planning may be adjusted according to the player's physical condition, the academic calendar and tournament acceptance lists. Any change will be communicated to the family in advance. / 本计划可能会根据球员的身体状况、学业安排以及赛事报名录取情况进行调整。如有变动，我们将提前通知家长。

DAILY VALUATION SUMMARY 每日评估摘要

TENNIS — AVG SCORE

87

PHYSICAL — AVG SCORE

93

Average of this month's daily attitude/effort/commitment scores from the wall board. 本月每日态度、努力与承诺评分（来自体能墙板）的平均分。

6. MEETINGS AND INDIVIDUAL WORK OFF COURT 场外会议

DATE	TYPE	PARTICIPANTS	MAIN TOPICS
2026.07.29	PARENTS MEETING	COACH + MOTHER	ON-COURT PERFORMANCE; COMPETITIVE MINDSET
2026.07.30	INDIVIDUAL MEETING	COACH + SUPERVISOR + PLAYER	ON-COURT PERFORMANCE

7. A MESSAGE TO THE FAMILY 致家长的话

Parents are an essential part of the team. The role you play at home is different from the one we play on court, and it is just as important.

Our job is the technical, tactical and physical side of the game — corrections, planning and competitive decisions. What helps the player most from your side is unconditional support that does not depend on results. A child who feels loved and valued the same way after a win and after a loss plays with more freedom and takes on the challenges of training with less fear.

The most valuable things you can offer are simple: encourage the effort rather than the result, avoid technical corrections or match analysis in the car on the way home, and make sure rest, nutrition and school routines are consistent. If you have questions or concerns about the player's development, please bring them directly to us — we are always available to talk.

When the academy and the family speak with one voice, the player has a clear and calm environment in which to grow, both as an athlete and as a person.

家长是团队中不可或缺的一部分。您在家中扮演的角色与我们在球场上的角色不同，但同样重要。

我们的职责是技术、战术与体能方面的工作——技术纠正、训练规划和参赛决策。而在您对孩子帮助最大的是不以成绩为前提的条件支持。当孩子感受到无论胜负都被同样地关爱和肯定时，他会打得更放松，也更敢于在训练中面对挑战。

您能给予的最宝贵的支持其实很简单：肯定努力而不是结果；避免在回家的车上进行技术指点或比赛复盘；并帮助孩子保持规律的休息、饮食与学习作息。如果您对孩子的发展有任何疑问或顾虑，请直接与我们沟通——我们随时乐意交流。

当学院与家庭传递一致的声音时，孩子就能在清晰而安定的环境中成长，无论是作为一名运动员，还是作为一个人。
